The Research and Development (R&D) Committee at Rajendra Gode college of pharmacy drives scientific innovation and scholarly pursuits by coordinating faculty-student projects in pharmacokinetics, drug formulation, and nutraceuticals. It organizes workshops, secures funding, and fosters industry-academia collaborations to deliver practical healthcare solutions. Key activities include promoting high-impact publications, patents, and grants via mentorship and resources like HPLC labs and 3D printing facilities, plus seminars on research methodology, IPR, and ethics to enhance staff-student capacity.

### Vision

To emerge as a pioneering center of excellence in pharmaceutical research and development within the college, driving cutting-edge innovations that advance drug discovery, formulation technologies, and healthcare solutions for global impact.

### Mission

The Research and Development (R&D) Committee is dedicated to fostering a vibrant ecosystem for scientific inquiry, interdisciplinary collaboration, and knowledge translation in pharmacy sciences. We aim to nurture faculty and student researchers by providing resources, mentorship, and infrastructure to conduct high-impact studies aligned with industry needs and societal health challenges.

### Objectives

1. Promote research culture through workshops, funding opportunities, and collaborations with pharmaceutical industries and academia.
2. Facilitate development of novel drug delivery systems, analytical methods, and nutraceutical formulations via state-of-the-art facilities like HPLC and 3D printing.
3. Enhance publication output, patents, and grants to elevate the college's ranking in pharmaceutical innovation.
4. Support student projects on pharmacokinetics, bioactive compounds, and diabetes management to bridge academia and real-world applications.
